

EMERGENCY INSTRUCTIONS FOR REPLACEMENT SANTA

Has Santa tripped over a waiter in your hotel? Is he able to do his job of delivering presents around the world. Don't worry there isn't much pressure on you delivering presents around the world . Do not worry help is here. These instructions will help you be Santa Clause .

What you will need

- A working sleigh (only because not working sleighs don't give boost, which makes you go quicker)
- Seven reindeer, who will pull the sleigh around the world.
- Sack of presents (watch out the sack might have a hole and the presents will fall out)
- Food(but don't eat to much other wise you won't have room for mince pies). Bring carrots for the reindeer.
- Warm clothing (other wise you might freeze).
- Book which shows which children want which presents also this book shows how many presents you have delivered .

What you need to do

Firstly, put on the warm clothing. Remember put your food in a safe pocket but put the reindeer food in the glovebox. Before you put the carrots in the glovebox you will see a key. This isn't any ordinary key so keep it safe. Sit tight and hold the reins but don't forget to say " Christmas is here." Quickly, the reindeer will begin to take off.

Next, when you reach a house you land on the roof. You do this by saying "land" and point to the roof . Then, you search for a chimney and go down it. If there isn't a chimney climb on Rudolf and tap him twice on the shoulder. Suddenly, you will feel a rush of magic in your body, that is Rudolf giving you magic. Don't worry he doesn't lose his magic permanently. He regains his magic by resting. So anyway when he gives you the magic , get off Rudolf and you can fly to the front door. You fly because if you jump you will break your legs. Quietly, get the magic key out and unlock the front door. As silent as possible walk to the Christmas tree and put the presents down. You will be surprised because the bag is empty. If you felt something heavy in your coat that is the book which shows which children want which presents. Just after you open the book it will flip to the child's house your in. After, tap all the presents the boy or girl wants. Out of the bag presents will fly out and land in your hands. Straight after, put the presents under the Christmas tree. There will be milk and mince pies if you want too you can eat them. Repeat this process until everyone in the world gets a present. Also let me tell you what to do in Alaska since it is so cold. Where you are sitting there is a secret opening , there is some more warm clothing.
