

HOW TO BE SANTA INSTRUCTIONS

Has Santa told you that you need to deliver the presents this year? Do you know how to work the sleigh ? Well then read this to find out how. Because if you don't then

You won't complete your mission to all the boys and girls

What you will need

- A working sleigh
- 7 Reindeer
- Santa costume
- Presents

How to do it

Firstly, get your 7 reindeer ready for flight so you can get to every location and get every boy and girl in every neighborhood happy on Christmas morning

Secondly, make sure that you have every child's present so you don't have to fly all the way there and have to come all the way back just to get one present for a child so make sure you have every present!

Next, before you get on the sleigh, you have to reach into your sack and you will find seven carrots and you will find a red one that one is for Rudolf and the others are for the other reindeer when they have finished their carrots, quickly grab the reins and hold on tight or else the reindeer will go without you. If you want to go right, then turn the right side of the rein and the same for left.

After that, when you arrive at the first house, you need to land on the roof, try to be as quiet as you can, then get into the chimney or if they don't have a chimney, get your key from inside the sack and go to the front door, make sure that you check what present you will need in the house and put the presents under the tree and then go that for every house in the world, oh and of the reindeer get tired, then get the other carrots from the sack and give them to them

And then go back home and relax for the rest of the night or day
